
Example of An 8-Hour Installation

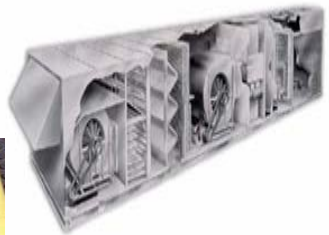

If this is your problem...

This is your solution

A factory specialist
Measures the existing
unit

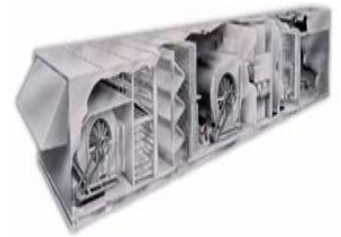

Factory trained personnel to assist during rigging and start up
The old unit is lifted off and hauled away...

Existing curb and ducts are cleaned and regasketed

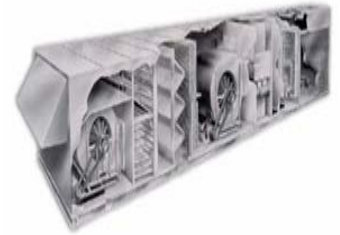

Existing utilities prepared
For new unit.

As Seasons.4 unit is
placed on the existing
curb, the multizone
Section panel is removed,
And the unit is properly
Positioned.

With the zones aligned, the
electrical wiring
Piping and controls can be
Reconnected.
